

# CERT Field Day Postponed

Hello CERT volunteers,

As a proactive effort to help safeguard the community against the 2019 novel coronavirus (COVID-19), the Riverside County Emergency Management Department (EMD) is postponing the 2020 Community Emergency Response Team (CERT) Field Day, which was scheduled for Saturday, March 21, 2020. We are rescheduling the event for Saturday, October 17, 2020. We apologize for any inconvenience this may have caused however, the safety and wellbeing of Riverside County residents has been and will remain our number one priority. We hope you will join us for CERT Field Day later in the year. An email with more information will be sent out to all volunteers to identify interest in assisting with the new event date.

Thank you,

**William Luna**
