Moody, Sun Lakes Country Club; Dennis Rice, Solera; Daryl Schlicke, Calimesa EC; Sam Shoemaker, SPARC President; Mike Simon, Plantation on the Lake/Vice President; Larry Spence, Plantation on the Lakes/LCS; Leonard Tavernetti, Four Seasons; Janet Upchurch, Red Cross; DeEsta West, Secretary/LDS Church; Ed Clark, City of Calimesa, Elizabeth Santoyo, Unified Care Services; David Elsworth, MBMI; Nick Gercis, Solera.

Call To Order	Mike Barron called the meeting to order at 08:32 AM	
Self-Introductions		
OLD BUSINESS		
Proposed Action Minutes	Minutes from March 12, 2019 were first and seconded by T.J. Moody and John Keith then unanimously approved.	
Treasures Report	T.J. Moody reported that there is \$886.38 in the PASSCOM account as of 4-1-19.	

AGENCY UPDATES:		
PASSCOM Website	Dennis Rice that there were 650 hits in March. Website is www.passcom.us .	Send or email Dennis flyers to post
Riverside County EMD	Stacie Kelly reported that the CERT field day had great weather. They had 128 people signed up plus invited those on the waiting list. They had 40 people show up. They had almost more volunteers than people come. Mike Simon said he was a great dead man. Thanks to volunteers it was a great class. CERT class will be held at the Noble Creek Community Center, Beaumont. May 1, 2 and 3. Friday will be 6-9pm. Sat and Sunday will be 9am-5pm. To sign up go to rivcocert.com. Mike Simon said that Dennis Day will be putting one on later. Larry Spence- Plantation is inquiring about a CERT class. The firemen in Calimesa would also like to do a Class. Stacie said that she is in charge of District 3 and Diana Rocket is in charge of District 5.	
City of Calimesa/President	Mike Barron reported new cover now up at the Calimesa Fire Station.	
San Gorgonio Medical Hospital	Joey Hunter reported that beds are being filled. There is a table top exercise this month. The President is bringing in additional services	
Plantation on the Lakes/ Vice President	Mike Simon reported that the Disaster Expo was great. It was small but great. Banning Electric is coming next month. David is on his list.	
	Round Table Other Agency / Organization Reports	
Calimesa EC	Daryl Schlicke reported that four radios are doing well now. They started with four people and now have between nine and 12 members.	
Plantation on the Lakes	Larry Spence reported that things are quiet. They delivered "I'm OK" signs and medical forms to 500 homes (put in an envelope)	
Highland Springs Country Club	The LoPresto's reported that their daughter, Donna LoPresto Newman DloPresto@sanjacinto.k12.ca.us is looking for volunteers April 22 and 23 for CERT training from 8-12 at San Jacinto High School. They are having a drill on Thursday @ 2pm. Ronald LoPresto also said that if you have a DNR the paper needs to be in a bag by you otherwise they will do CPR.	
Plantation on the Lakes	John Keith reported that mail theft is a big thing right now. It has been changed to a misdemeanor. Take mail inside the post office.	
Retired SCE	Mike Martin recommended a book called "Five Days at	

	Memorial". It is about Katrina. It is the most frustrating book but good to know. It also affected legislation. He also requested a presentation from Joey on his plan.	
SPARC President	Sam Shoemaker reported that the Banning Expo went very well. He had three people from RACES there. They are doing quarterly drills this month, Hospitals (monthly), Riverside, Indio, etc. April 17 is Beaumont. Three people have keys to the Beaumont radios. Things have changed for the better since Joey has been there. (David Elsworth would like to be added to the Coms testing {except HF}).	
MBMI	David Elsworth is the Morongo Emergency Manager. He has been in his position about a year. He has a background in communication and emergency Management. Two weeks ago he was in Sacramento helping with the rewriting of the California Catastrophic Earthquake plan. The better prepared everyone is the better off we will be. (Mike Simon explained what PASSCOM is). (Stacie Kelly said Morongo is great) David explained that there is a wall between the casino side and Morongo EOC are separate. They have two different plans. So it is Morongo EOC and the tribe then the casino. Morongo will help the casino if needed. The casino has around 60,000 people per day plus the outlets. They are preparing for evacuation points.(Stacie Kelly as of right now they are waiting approval for a large animal evacuation site at the rodeo grounds). (Mike Barron asked if they had a MOU with Arrowhead.) David said that there is not but he thinks that they have 2 pallets available in case of a disaster. David has lunches with the tribal chiefs and others so they are able to get to know each other. (Dennis Rice asked if the outlets have a plan.) David – not that he knows of. He is to call FEMA and North Com directly. Geologically he can see the fault line from his office. He has also spoken with Lucy Jones to see what she thinks- she is interested to see what will happen. Casino is designed to withhold an 8.0 quake. It is predicted that Las Vegas will be out of gas within 48 hours. There are some back roads on tribal lands that are private. He is not sure that they will be able to be used. (Mike Barron said "do not take side roads from Vegas through Tribal lands). David said that freeways 15, 10 and 8 are in the Catastrophic plan. (Mike Barron said that roads and rocks are going to be an issue).(Daryl Schlicke asked what plans are available for communication?) David reported that they have four repeaters available to them. He can talk with all 12 tribes in CA. Weds. They will have a radio test. They have 2 EOC frequencies. EOC open net frequencies has a test last week. They have EOC disaster frequency. 2 repeater frequencies. Riverside County -they are still in talks. They have a business band radio. They have satellite phones and antennas and they have contingencies. They have a great mobile command unit. (Larry Goodreau asked "how many people are in the 12	

	<p>tribes?") David-I do not know the numbers. Palm Springs Area of the tribes is different. They work closely with Palm Springs. (Larry Spence asked about the mobile command- Who has it?) Beaumont PD has control of it. (Mike Barron-there are a lot of changes. It is hard to keep up and get people here. (Dennis Rice asked if David would be willing to do a presentation.) David said yes but he covered almost everything today that he would present.</p>	
Rivco EMD	<p>Stacie Kelly reported Caltrans will be doing major repairs on the 74. They will be doing escorts every three hours up and down the hill. That give the work crews 6-8 hours they can get the work done plus additional repairs. They are confident in the repairs and will be working 24 x 7. Caltrans has posted the information on their website. There are projections on the 243. Idyllwild is struggling right now because of the road closure. Support them if you can. It is an hour and a half to get there but it is a pretty drive. (Mike Barron said that Caltrans has a phone app. . The truckers' app also good to down load. Mike uses these apps regularly. He gave an example about driving to and Murrieta. Apps help you with what is going on now.) Stacie also said there is a Summit held at the Riverside Convention Center on May 8 from 8am- 4pm. If you would like to come please let her know</p>	
Serrano Del Vista	<p>Steve McGill that his booth was well attended at the Expo. He was impressed with David trailer. He enjoyed the more relaxed format. He had a great time</p>	
Four Seasons	<p>Mike Mendoza reported that they are looking for new members. They are also doing research on "stop the bleed" kits.</p>	
Sun Lakes	<p>Dick Heitman reported</p>	
Highland Springs Village	<p>Fran Flanders reported that the expo was great. She also said that the High School students did not have a clue about HAM radios. She took them over to meet Sam. She also bought some stuff from Simplier Life that she can put in her water barrels that lasts five years. Her spaghetti dinner is this Sat. They have great prizes. She also went to a presentation yesterday about Banning Bench water- they frequently don't have water because of a flume. They are having a problem with SCE-they are supposed to update the flume. The bench does not have any water sometimes. SCE can't get equipment up there to fix the flume. The flume is made out of wood. (Mike Barron reported that the environmentalists are creating the problem and not letting the equipment come in to the area). (Janet Upchurch said they are having a work day party this Sat. to help fix the problem).</p>	
Solera	<p>Dennis Rice reported that they are reevaluating their program and trying to increase the number of people. They got some really good ideas from Steve, Larry and Dick. They are going to start having a meeting for new members.</p>	
Red Cross	<p>Janet Upchurch reported, after Mike talked about the book, that she had an incident in Slidell in a hospital. It was very frustrating there were no doctors or nurses. They did not have</p>	

	the proper food etc.. Right now they are working with the county setting up shelters. At the end of April they will be setting up a shelter	
Four Seasons	Lenard Tavernetti reported that in Paradise they talked with people involved in the rebuilding. Most people are retired-most are leaving. There is no sewage system. Bulldozers are bulldozing down to the earth. Those that their houses did not burn down are the worse off. He also brought in a nonrefillable fire extinguisher and asked what he should do with it. Mike Barron said to take it to a hazmat place. (I later received an email from him saying that the San Bernardino Fire Station on 6 th Ave. would accept them).	
Announcements Upcoming Community Events	CERT Training, Noble Creek community Center May 31, June 1 and 2. Sign up on rivcocert.org. Summit meeting May 8 at the Riverside convention Center from 8am-4pm	
Future Agenda Items	*VOAD is the 1 st Thursday every other month from 10-12 at Beaumont City Hall. It is held every other month. It will be held May 2.	
Adjourn	Next PASSCOM Meeting, May 14 th at 8:30am in Modular C at San Gorgonio Memorial Hospital.	
	The meeting was adjourned around 10am
